

## **Application: Instructions for Wearing Toylie Latex Gloves**

**Note:** To ensure maximum durability and comfort, we recommend putting on the gloves carefully and mindfully. The following steps will help you wear them easily and comfortably.

### **Step 1: Preparation**

1. **Clean your hands:** Ensure your hands are clean and dry. Remove any jewelry, long nails, or sharp objects to avoid damaging the gloves.
2. **Inspect the gloves:** Check the gloves for any tears or damage before putting them on.
3. **Use a lubricant:** To make it easier to put on the gloves, you can use a special latex lubricant, such as Toylie Silicone Oil or Toylie Talcum Powder. Avoid oils or fat-based products that are not suitable for latex, as these can damage the material.

### **Step 2: Putting on the gloves**

1. **Prepare the glove:** Hold the glove by the wrist and gently turn the opening outward, making it wider for easier insertion.
2. **Insert fingers:** Slowly guide your fingers one by one into the glove's opening, carefully sliding them into the corresponding finger sections. Be mindful not to pull too hard to avoid damaging the latex.
3. **Pull up evenly:** Gradually pull the glove up over your hand, ensuring it fits snugly around your wrist. Make sure the latex lies smooth and does not wrinkle.

### **Step 3: Adjustment and finishing touches**

1. **Check the fit:** Ensure the gloves fit snugly without cutting into your skin.
2. **Smooth out any wrinkles:** Gently run your hands over the gloves to smooth out any remaining wrinkles.
3. **Add lubricant if needed:** If desired, you can apply a bit of latex shine spray or Toylie Silicone Oil to the outside of the gloves for a glossy finish and smoother feel.

### **Care instructions:**

- After use, clean the gloves in clear, lukewarm water without detergent. A specialized latex cleaner may be used.
- Let them air dry and store them in a cool, dark place to protect the material.
- Avoid contact with sharp objects, UV light, and greasy substances.

**Important:** Latex may cause allergic reactions in some individuals. If you experience itching, redness, or other discomfort, remove the gloves immediately and consult a doctor.

By following these instructions, you should be able to put on Toylie Latex Gloves effortlessly and comfortably.
