

User Manual for Penis Sleeve

Congratulations on your purchase of the penis sleeve! To ensure the best experience and safe usage, please read this manual carefully.

1. Product Description

The penis sleeve is a high-quality sex toy made from silicone, TPE, or TPR, designed to enhance the intimate experience. It provides a tighter fit, increased stimulation, and can prolong intercourse.

2. Instructions for Use

1. **Preparation:** Clean the penis sleeve thoroughly with warm water and a mild, soap-free cleaning solution before first use. For best results, use a special toy cleaner.
2. **Application:**
 - Apply a sufficient amount of water-based lubricant to the inside of the penis sleeve. Do not use silicone-based lubricants, as they may damage the material.
 - Gently pull the penis sleeve over the erect penis. Ensure it fits well and is not uncomfortably tight.
 - Position the ball ring over the testicles comfortably. The ball ring provides additional support and can help delay orgasm.
3. **Usage:**
 - Use the product only as intended and be mindful of your physical limits. If any pain or discomfort occurs, discontinue use immediately.
4. **Post-Use Cleaning:** Wash the penis sleeve immediately after use with warm water and a mild toy cleaner. Dry it with a lint-free cloth and store it protected from direct sunlight.

3. Warnings

- Do not use the penis sleeve on open wounds, skin irritations, or if you have allergies to silicone, TPE, or TPR.
- The product is intended for external use only.
- Do not use the penis sleeve under the influence of alcohol or drugs, as this may lead to improper use.
- Be cautious not to wear the product for too long (maximum of 30 minutes per use) to avoid compromising blood circulation.

4. Safe Use

- Always use sufficient water-based lubricant to prevent skin irritation.
- Check the product for damage before each use. Do not use if there are visible cracks, deformities, or other damage.
- Keep the product away from sharp objects.

5. Risk Analysis

- **Choking Hazard:** Keep the penis sleeve away from children and pets. The product is not a toy.
- **Circulation Issues:** The ball ring should not be too tight to avoid compromising blood circulation.
- **Material Sensitivity:** Test the product on a small area of skin if you may be sensitive to silicone, TPE, or TPR.

6. Disposal

- Dispose of the product responsibly. Silicone is a non-biodegradable material and should be disposed of in regular waste.
- Packaging materials and the instruction manual can be recycled with paper and plastic waste.

7. Safety Information

- Store the penis sleeve in a dry, cool place away from direct sunlight.
- Do not store the product together with other toys to avoid reactions between materials.
- Keep the product out of reach of children.

If you have further questions about usage or encounter any issues, please contact customer service. We wish you joy and safe experiences with your Toylie product!
