

User Manual for Masturbators Made from TPE/TPR/Silicone

Introduction:

Thank you for choosing our masturbator. This product is designed to provide you with a realistic and satisfying experience. Please read this manual carefully to ensure safe and enjoyable use.

1. Before First Use

1.1 Cleaning:

Before first use, thoroughly clean the masturbator with lukewarm water and a mild, antibacterial toy cleaner. Rinse it thoroughly afterward and allow it to dry completely.

1.2 Inspection:

Examine the masturbator for any damages or deformities. Do not use the product if you notice any defects.

1.3 Material Compatibility:

Only use water-based lubricants. Silicone- or oil-based lubricants can damage the material.

2. Usage

2.1 Lubrication:

Apply a sufficient amount of water-based lubricant to both the masturbator and your intimate area. Adequate lubrication is essential for a pleasurable experience and reduces the risk of skin irritation.

2.2 Usage:

Gently position the masturbator and begin with slow, controlled movements. Adjust the intensity and speed to your preferences. Avoid stretching or overexerting the product to prevent damage.

2.3 After Use:

Clean the masturbator thoroughly immediately after use with warm water and a suitable toy cleaner. Ensure all residues are removed. Allow the product to dry completely before storing.

3. Safety Precautions

3.1 Injury Prevention:

- Use the masturbator only as intended.
- Do not use the product if it is damaged.
- Do not insert the masturbator too deeply and avoid jerky movements.

3.2 Hygiene:

- Do not share the masturbator with others to minimize the risk of infections.
- Do not use the product if you have open wounds, skin irritations, or infections in the intimate area.

3.3 Use of Lubricant:

- Only use water-based lubricants.
- Lubricants containing silicone or oils can damage the material and the product.

4. Warnings

- **Do not eat or place in the mouth:** The masturbator is intended for external use only.
- **Not suitable for use with silicone or latex allergies:** Consult your doctor before use if you are sensitive to materials such as TPE, TPR, silicone, or similar substances.
- **Do not use under the influence of alcohol or other mind-altering substances:** For safe application, use the masturbator only when fully conscious.

5. Disposal

Dispose of the masturbator in an environmentally friendly manner and observe local regulations regarding the disposal of plastic products. Masturbators should never be disposed of in the toilet or drain.

Recycling Note: TPE/TPR materials are not biodegradable, so they should be placed in regular waste and not in the recycling bin unless specific collection points for such products are available.

6. Storage

Store the masturbator in a cool, dry place away from direct sunlight and high temperatures. Avoid contact with other toys made of silicone or latex to prevent material reactions. It is best to keep the masturbator in the provided packaging or in a separate bag.

Note: This manual is for general information. For individual concerns or uncertainties, please consult a doctor. If you have further questions, our customer service team is happy to assist you.

Wishing you pleasure and safe use,
Your Toylie Team!
